AIM of the PROJECT

“The aim of our project is to develop core leadership competencies of youth leaders of our organisations.”

WHY? - Each year our organisations send several youth leaders for international activities abroad. Youth leaders act as role models, as supporters and as many other roles in the complexity of youth activities. For that, they need several key competences - knowledge, skills and attitudes. With them, they can lead others and also themselves for better future.

HOW? - Through intensive training focused on team leading, coaching, conflict management and effective communication.

AIM of the TRAINING COURSE

The aim of the training course is to develop core competencies of youth leaders in fields of group dynamics, leadership, conflicts, communication, coaching and understanding of Erasmus+, ESC and the Platform Network. To achieve this, we will use non-formal education, specifically experiential learning, where participants will learn upon their action, reaction, reflection and abstraction.

PARTICIPANT PROFILE

- 3 participants per project partner
- Age 17 to 30
- less experienced in leading youth
- participated in at least 1 international youth activity
- English level B1 (able to communicate general topics)

Additional requirement is that participants should be leading youth activities after the TC, ideally summer 2023 to put in practise gained competencies.

Participation fee is 20€ per person
